

Maths Transition Work

Welcome to The Chantry Maths Department. We would like to help you to get 'Chantry Ready' for September. We have arranged for you to complete some of the excellent Yr6 Transition work on the MyMaths website. We will be able to see what you have completed and we will be able to feed this into our lesson planning for the Autumn Term. Give the tasks a good go, but don't worry if you can not complete all of the work. We know that you will have missed out on some important maths lesson at your primary school. We also know that not all pupils will have covered the same topics or topics in the same detail. You will be *helping us* to plan how to *help you* in September.

Accessing MyMaths:

Login to <https://www.mymaths.co.uk/>

On the login page the School username is 'chantry'

● The School password is 'cuboid'

● Once you are in you will see access to your personal portal

My portal username

My portal password

?

Log in

You will need to type in your own portal username and password. Keep it somewhere safe and write it down. Mr Hill has already handed this to parents / carers during your Welcome Visit or, if this was not possible, emailed it last week.

We have set some Yr6 transition tasks for you to complete in your own time, you do not have to do all of them. There are lots of mathematical games too that you may enjoy. You can also complete any other tasks but please use your portal so all your work is saved.

Good luck!

The Chantry Maths Department
